2021 – Present

ABOUT ME

Hello, I'm Chaloeprat, a 23-year-old Information Technology student at Phibulsongkram Rajabhat University. I'm passionate about backend software development. Despite my IT background, I actively seek additional learning opportunities to enhance my backend skills through online courses and self-study. I've also worked on personal projects and part-time jobs throughout my studies, which have effectively improved my time management skills and sense of responsibility.

PROJECTS

Assessment-Tax Fullstack Project

Role: DevOps Engineer

Technologies Used: GitOps, CI/CD, Kubernetes, ArgoCD, SonarQube, Docker, Golang, Nextjs, Typescript, PostgreSQL unit test

Project Details :

- Implemented a comprehensive DevOps pipeline for a tax assessment application .
- Used Git for version control and CI/CD tools to automate build, test, and deployment processes .
- Applied GitOps principles with ArgoCD for continuous deployment and Kubernetes resource management .
- Configured Kubernetes clusters using Minikube with VMware for high availability and scalability .
- Created .yaml files for deploying various components on Kubernetes .
- Integrated SonarQube for continuous code quality checks .
- Utilized Docker for containerization, ensuring consistency across environments .
- Developed backend services in Golang and frontend components with Next.js and TypeScript .
- Wrote unit tests for backend components using mockgen .
- Managed PostgreSQL database for data integrity and optimal performance.

CERTIFICATIONS

- GO Software Engineering Generation 2 KBTG
- Go Software Engineering Bootcamp
- AWS Cloud Technical Essentials
- IBM Penetration Testing, Incident Response and Forensics
- TryHackMe Jr Penetration Tester

SKILLS

Tools / Framework

Docker
 kubectl
 Argo CD
 SonarQube
 AWS
 Google cloud
 tailwind css
 NextJs
 HTML
 Git
 Echo
 Postman

Languages

Golang
 JavaScript
 TypeScript

OS

Ubuntu
 Windows
 Mac OS

Database

PostgreSQL
 MongoDB

Languages

- English:(basic)
